

BIDUSHI GAUTAM

Kadaghari, Kathmandu | 9866836520 | gautambidushi4@gmail.com

[GitHub](#) | [LinkedIn](#)

Final-year BSc CSIT student with hands-on internship experience in .NET backend development and SQL Server management. Strong logical foundation in designing controller architecture, manipulating relational databases, and handling backend application workflows. Eager to leverage strong SQL, data handling, and manual code-verification skills to contribute to high-quality technical teams.

EXPERIENCE

.NET Developer Intern | Baneshwor, Kathmandu

Dec 2025 - Mar 2026

Logi Tech Pvt. Ltd.

- Developed and optimized backend server-side logic using ASP.NET Core MVC controllers to handle data requests efficiently.
- Managed database transactions and data communication flows using Dapper ORM with SQL Server.
- Conducted regular manual testing and debugging of controllers and data tables to identify bugs and ensure software reliability.
- Collaborated on designing clean relational database schemas to ensure strict data integrity

EDUCATION

Bachelor of Science in Computer Science and Information Technology (BSc CSIT) | New Summit

College, Kathmandu

Jan 2023 - Present

- Relevant Coursework: Software Development, Programming Languages, Web Technologies, and Data Structures.

PROJECTS

Peer Assist [GitHub Repository](#)

ASP.NET Core MVC | C# | Dapper ORM | SQL Server | Bootstrap | jQuery

- Engineered core backend controller logic to process and route multidimensional user data safely.
- Designed a custom algorithmic ranking module that analyzes and weighs specific criteria to match user profiles.
- Built and structured the underlying SQL Server database tables to securely hold user record datasets.

Choto Job [GitHub Repository](#)

ASP.NET Core MVC | C# | Entity Framework Core | SQL Server | Bootstrap | JavaScript

- Built a multi-tier authorization system using backend logic to safely verify municipality user metadata.
- Optimized data tables and search queries to allow fast, secure retrieval of job and location records.

Billing System [GitHub Repository](#)

ASP.NET Core MVC | C# | Dapper ORM | SQL Server | Bootstrap | jQuery

- Developed financial data controllers to process, track, and aggregate numerical transaction records.
- Implemented strict data handling rules to prevent transaction overlaps and maintain database integrity during billing cycles.
- Generated structural reporting views to fetch, display, and verify payment metrics from the database.

Employee Assignment [GitHub Repository](#)

ASP.NET Core MVC | C# | Dapper ORM | SQL Server | Bootstrap | jQuery

- Developed an employee scheduling and appointment management system.
- Implemented conflict-free assignment logic based on employee availability.
- Optimized scheduling operations using Dapper ORM with SQL Server.

TRAINING / CERTIFICATIONS

Python Bootcamp Certificate | Python Users Group Nepal

2023

- Completed an intensive Python programming bootcamp focused on core concepts, data structures, and real-world applications.

TechTrix 2023 - Organizer & Core Team Member | TechTrix

2023

- Served as an organizer and core team member in TechTrix 2023.

SKILLS

Programming Languages: C#, SQL, Python, JavaScript, C++, C, PHP

Backend Technologies: ASP.NET Core MVC, Entity Framework Core, Dapper ORM, LINQ, Manual Testing

Frontend Technologies: HTML5, CSS3, Bootstrap, jQuery

Databases: SQL Server, MySQL, Data Aggregation, Relational Database Design

Developer Tools: Git, GitHub, Visual Studio, Visual Studio Code

LANGUAGE

English, Nepali
